

How to play
Blackjack+
& Ante Up
Blackjack

Have a go at playing one of our exciting new Blackjack game options.

Getting started

To join in the action, simply place any cash on the table and the Dealer will exchange it for gaming chips – then you're ready to go!

After playing, go to the cashier to change any chips back to cash or take them to another table to continue the fun.

Table limits

Ante Up Blackjack and Blackjack+ tables have varying minimum and maximum bets. Before you sit down, please check the sign displaying the betting range at the table.

Good luck... and remember

As with all Table Games, if you are not sure about a bet or the rules of the game, just ask one of our Dealers for assistance. They will be happy to explain anything about the game that you may not understand, or provide you with further information in relation to the rules.

Play responsibly and be in to win

SkyCity prides itself on being a responsible host. As such, we would encourage you to play only at levels you can afford. If you wish to discuss your Gaming, please talk to a SkyCity staff member or call the Gambling Helpline on 0800 654 655. Remember – you must be aged 20 years or older to enter the gaming areas of SkyCity.

SkyCity now offers two exciting new game options for Blackjack players – Ante Up Blackjack and Blackjack+, both based on the traditional Blackjack Table Game.

Please refer to the 'How to Play Blackjack' brochure to learn how to play Blackjack.

ANTE UP BLACKJACK

How it works

Ante Up Blackjack is the same as traditional Blackjack except that each player's initial bet must be accompanied by an "Ante" (i.e. a participation fee). The value of the Ante will be indicated at the relevant table.

All initial bets must be accompanied by an Ante before the Dealer calls 'No more bets'. If, after 'No more bets' has been called, it is discovered that an initial bet is not accompanied by the required Ante, that initial bet and any side bets dependent upon it will be void and returned to the relevant player. If there is no valid bet remaining in the box and cards have been dealt to that box, then those cards will be removed from play.

Upon completion of the initial deal, the Dealer will collect all Antes placed and the Dealer will continue with the game as per the rules of traditional Blackjack.

BLACKJACK +

How it works

Blackjack+ is very similar to traditional Blackjack except for the following variations:

- 1) The Dealer will bust if the Dealer's total exceeds 22.
- 2) If the Dealer's total is 22, all remaining player bets are considered a 'Push' and you keep the amount you bet.

- 3) A player will not be dealt more than five cards in any one hand.
- 4) “Blackjack” will be paid at the odds indicated on the table layout at the relevant table.
- 5) Regardless of the value of the Dealer’s first card:
 - Winnings will be paid immediately if you get a “Blackjack”;
 - A player wins and gets paid even money immediately on hands totalling 21; and
 - A player wins and gets paid even money immediately on any five-card hand totalling 20 or less.

Additional bets

In Ante Up Blackjack, doubling, splitting and insurance are offered as additional bets.

In Blackjack+, doubling, splitting and insurance are offered as additional bets. However, insurance will not be offered to any player with a “Blackjack”.

Any Pairs

In both Ante Up Blackjack and Blackjack+, you may choose to make an Any Pairs wager as a side bet.

An Any Pairs wager will win when the first two cards dealt to a player with an Any Pairs side bet are a pair. Any Pairs wagers are paid at the odds specified at the relevant table.

Bets and Odds

In Ante Up Blackjack and Blackjack+ all winning bets (including a “Blackjack”) are paid at the odds displayed at the relevant table.
