Surrender

If you choose to 'Surrender' simply advise the dealer. You will lose half your 'Casino War' wager.

Go to War

If you choose to 'Go to War', you will be required to place a 'Go to War' wager (of an equal value to your initial 'Casino War' wager) on the right hand side of your 'Casino War' wager. The dealer will discard three cards. You and any other player with a 'Go to War' wager will then be dealt one card each face up and then one card is dealt face up to the dealer.

Where your additional card is of a higher rank than the dealer's additional card, you will be paid at odds of 1 to 1 for your 'Go to War' wager only. Your 'Casino War' wager will be a 'stand off' where it shall neither win nor lose.

Where your additional card is of equal rank to the dealer's additional card, you will be paid at odds of 2 to 1 for your 'Go to War' wager only. Your 'Casino War' wager will be a 'stand off' where it shall neither win nor lose.

Where your additional card is of a lower rank than the dealer's additional card, you will lose your 'Casino War' wager and your 'Go to War' wager.

Tie

Your 'Tie' wager will win and be paid at odds of 10 to 1 if both your first card and the dealer's first card are equal in rank otherwise it shall lose.

Getting started

To join the action, simply place your cash on the table and the Dealer will exchange it for gaming chips – then you're ready to go!

After playing, go to the cashier to change any chips back to cash or take them to another table to continue the fun.

What is the aim of the game?

Casino War is one of the easiest Table Games. One card is dealt to each player on the table and one to the dealer. If your card beats the dealer's card, you win! If both you and the dealer have the same rank card; you can choose to 'Go to War' and try to beat the dealer with a second card.

Cards rank from lowest to highest as follows: 2, 3, 4, 5, 6, 7, 8, 9, 10, Jack, Queen, King, Ace.

All suits of cards have the same rank.

How to play

Before any cards are dealt, you may place either a 'Casino War' wager or a 'Tie' wager or both, in the appropriate wagering areas of the layout. You and any other player with a wager will then be dealt one card each face-up and then one card is dealt face-up to the dealer.

If your first card is of a higher rank than the dealer's first card, your 'Casino War' wager will win and be paid at odds of 1 to 1. If the dealer's first card is of a higher rank than your first card, your 'Casino War' wager will lose.

In the event that your first card and the dealer's first card are of equal rank and you have placed a 'Casino War' wager, you can then decide whether to 'Surrender' or 'Go to War'.
