

How to play **Rapid Roulette**

Rapid Roulette has all the excitement of Roulette at your fingertips, but in the comfort of your own terminal. The Roulette layout appears on the screen before you. Simply touch the section of the screen where you wish to place a bet.

Getting started

To join the excitement of Rapid Roulette, insert money into the note acceptor on the terminal.

When you have finished playing, simply select the 'Cash Out' option on the terminal screen and a ticket will be printed for you to redeem for cash at the cashier.

What is the aim of the game?

The roulette wheel contains compartments numbered from 0 to 36 (or 00-36). The Dealer spins the ball and whichever compartment the ball falls in wins!

The aim of the game is to guess where the ball will land.

How it works

Select the value of your chips by touching one of the chips on the screen. When "Place Your Bets" is displayed in the top left of the screen simply touch your preferred betting area once to play one chip, twice to play two chips etc.

A timer on the screen will count down to let you know how long you have before you must finish placing bets.

When the ball is about to drop, the screen will show "No More Bets" and the game will be locked out. You will not be able to place or remove bets at this stage.

The Dealer enters the winning number and your terminal automatically updates; winning results are paid and losing bets taken.

Regular bets

The terminal offers a “Recall” option that allows you to play exactly the same bet as the previous spin; with one touch of the screen your bets from the previous spin will be instantly replayed.

Call Bets

The terminal also features a range of ‘setbets’ such as Neighbours, Tiers and Orphelins. These bets cover a particular section of the roulette wheel and are placed by simply touching the areas marked at the bottom left of your screen.

Bets and Odds

The payout odds and house margin are exactly the same as that on a live game.

Table limits

If you place a bet that is under the minimum, a window will appear advising you that your bet is under the minimum. The terminal will not allow you to place a bet that is over the maximum.

Good luck... and remember

As with all Table Games, if you are not sure about a bet or the rules of the game, just ask one of our Dealers for assistance. They will be happy to explain anything about the game that you may not understand, or provide you with further information in relation to the rules.
