Also known as “Sic Bo” and “Big and Small”, **Tai Sai** is an ancient Chinese game of chance with a modern twist, it’s easy to learn and fun to play.

Getting started

To join the action, simply place your cash on the table and the Dealer will exchange it for gaming chips – then you’re ready to go!

After playing, go to the cashier to change any chips back to cash or take them to another table to continue the fun.

What is the aim of the game?

Tai Sai is a game played with three dice concealed within a tumbler. The aim of the game is to correctly predict the numbers or combinations of the dice before they are revealed by the Dealer.

How it works

The Dealer will cover the dice and activate the tumbler, spinning them three times.

Simply bet on any of the numbers or combinations that you think will appear by placing your chips clearly within the area marked on the table.

Every possible bet appears on the table layout, along with the odds for each bet (refer to diagram). You can bet on one die (that is, whether a certain number will appear on at least one die), two dice combinations (whether two numbers will appear), or the total value of all three dice, trebles, big and small. You can bet on as few or as many areas as you like.

When all bets have been placed, the Dealer will call “no more bets” and reveal the dice.

The winning areas will light up so you can see if you have won.

Table limit

Table Games have varying minimum and maximum bets. Before you sit down, please check the sign displaying the betting range at the table.

Good luck... and remember

As with all Table Games, if you are not sure about a bet or the rules of the game, just ask one of our Dealers for assistance. They will be happy to explain anything about the game that you may not understand, or provide you with further information in relation to the rules.
